

What are the benefits of the EducatorPLUS for your PTA/PTO/HSA?

1. Reduced cost for quality, full-color posters

Posters printed using the EducatorPLUS cost roughly \$1-\$2 to produce, whereas fullcolor posters printed at an office supply store cost around \$40 each.

2. Attention-grabbing posters help promote events you have organized

Eye-catching, visual reminders spread excitement for your upcoming events. When the kids get excited they are more likely to take that enthusiasm home and get their parents to attend.

3. Fundraising efforts are increased

With posters placed in key areas throughout the school, your fundraisers get the attention they need. Students, teachers, & parents can stay informed on duration, deadlines, and distribution details.

4. Your EducatorPLUS can start to pay for itself

Through customized, poster sale fundraising, you can make money with your EducatorPLUS. Is there a school play, art show, sports team, winter concert, dance, or special recognition event? You can print your own photo posters and sell them.

At your next event, make your own photo booth with custom backdrops and props –all printed on the EducatorPLUS System.

If you charge \$5 for an 18"x24" poster you will make between 70-80% profit!
