How does the EducatorPlus System support well-rounded educational opportunities?

Programs and activities that use music and the arts as tools to support student success

*Title 20 §7117 (a)(3)(B)*

Hands-on learning and exposure to science, technology, engineering, and mathematics

*Title 20 §7117 (a)(3)(C)(iii)*

Foreign language instruction

*Title 20 §7117 (a)(3)(F)*

Volunteerism and community involvement

*Title 20 §7117 (a)(3)(H)*

The EducatorPlus can print classroom visual aids, artwork, theatrical backdrops, and many other resources. It can also print on a wide range of materials, empowering arts educators to create **student-designed stickers, magnets, decals, and other creative products**. These innovative products can give students **new artistic avenues** to explore, and enable discussions about the role of **technology in the arts**. The EducatorPlus can also create posters to **advertise arts events such as concerts, art shows, or plays**.

The EducatorPlus includes STEMvelope- a set of **24 STEM related lesson plans for grades 1-6**. STEMvelope includes **lesson plans, discussion guides, printable activities**, and other resources. Topics span several content areas and include many **hands-on activities** for learners.

The EducatorPlus includes **educational templates in ten languages**, all of which are customizable. The EducatorPlus can also create **custom posters and charts to support foreign language instruction**. Visual aides are an important part of **language immersion**, and the EducatorPlus makes it easy for teachers to create high quality visuals to fit their curricular needs.

The EducatorPlus comes with access to **PosterArtist, a user-friendly graphic design software**. Using PosterArtist, **students can create their own visuals to display in their schools**. Student groups can create posters promoting PBIS initiatives, positive messages, or student-led events. These tools can help students **take an active role in curating their school culture and community**.
