The EducatorPlus comes with a collection of **education specific templates** including posters, charts, and other visual aides. These templates are available in **multiple languages** and span **several content areas**. All templates are customizable, allowing educators, tutors, and mentors to **create custom visuals** to **support the needs of individual students**.

The EducatorPlus includes STEMvelope - a set of **24 STEM lessons for grades 1-6**. STEMvelope includes **lesson plans, discussion guides, printable activities**, and more. Topics span several branches of science and include **hands-on, discovery-based activities** that guide students through the **scientific method**. All lessons are customizable and can be adjusted to fit student needs.

The EducatorPlus comes with access to **PosterArtist, a user-friendly graphic design software**. Students can use this program to create their own posters, stickers, magnets, and more. PosterArtist teaches valuable **technology and graphic design skills**. Student-designed products can easily be used in school store programs and fundraising efforts, prompting classroom **discussion of product design, economics, and other valuable career skills**.

Title IV, Section B highlights many types of community programs. EducatorPlus can support these programs by offering **communication tools, templates, and easy printing options**. These materials can help **inform the community** about resources and programming available. EducatorPlus can also be used to form **partnerships with community groups, nonprofits, and organizations** that have resources to offer. The average cost of a poster printed on the EducatorPlus is **two dollars**. EducatorPlus can **make printing accessible** not only to your school, but to your community as a whole.
