AGC EDUCATION Inc.

Celebrating Growth & Gratitude

As the school year winds down, May is a time for reflection, appreciation, and celebration. We honor dedicated teachers, proud graduates, and supportive families who made this year a success. From Teacher Appreciation to graduation and year-end celebrations, AGC is here to help make these moments memorable.

Thank you for your hard work and dedication in empowering students. Let's finish the year strong—together!

PARTNER SPOTLIGHT

AIR BASE MIDDLE SCHOOL
DOVER, DE

Strengthening STEM Through Partnership

We're proud to spotlight Dover Air Base Middle School, a valued AGC partner. After purchasing the **Educator Plus Poster Printer** in 2018, they secured a Perkins Grant in May 2023 to establish a cutting-edge 3D printing lab. Partnering with AGC again, they expanded resources with six **IMAGIN3D** printers, along with training and support to empower student-driven projects.

Through hands-on STEM activities, students explored different filaments, colors, and designs, bringing their creative concepts to life. The program's teacher, a former specifications writer, contributed expertise to help AGC refine the **IMAGIN3D** setup manual, ensuring clearer instructions for all AGC partner schools.

This collaboration showcases the power of true partnership, benefiting both AGC and the school community. A heartfelt thank you to Dover Air Base Middle, the dedicated servicemen and women on the base, and all who serve our country this Memorial Day!

TECH SPOTLIGHT

Bringing 3D Printing to Every Classroom

At AGC, we believe innovative technology should be accessible to all students, not just a select few. Traditionally, many school 3D printers were limited to "gifted and talented" programs, so we developed the concept for **IMAGIN3D**—a versatile, user-friendly 3D printing solution for any classroom.

To support educators, we created **STEM3D**, a collection of ready-to-use 3D printing templates for various subjects. Popular templates include "3D Print and Dissect a Frog" for Biology, "3D Print Characters and Write a Story" for English, and "3D-Printed Cookie Cutters" for Family and Consumer Sciences.

By combining **IMAGIN3D** and **STEM3D**, we help empower students to explore, create, and innovate through hands-on learning—fostering creativity, critical thinking, and problem-solving skills.

TRAINING SPOTLIGHT

Maximize Your Educator Plus for Year-End Celebrations!

May is a time for celebrations—prom, graduation, and the many achievements of your students and staff. Custom posters, banners, and yard signs are a great way to recognize these special moments!

With the **Educator Plus Poster Printer** and **Sublimation Station**, creating professional-quality visuals is quick and easy. Plus, you can design unique keepsakes like T-shirts, hats, and mugs to commemorate the occasion.

Our Training Team is here to help you maximize these tools, providing guidance and customized training to bring your projects to life. Let us help you make this season unforgettable—reach out today to enhance your printing skills!

AGC NEWS

Teacher Resources

May is a time for reflection, appreciation, and new beginnings. Our latest templates help you celebrate key moments this month.

Graduation – Honor student achievements with certificates, memory boards, and celebration posters.

Teacher Appreciation – Recognize educators with thank-you messages, custom awards, and appreciation displays.

Asian American and Pacific Islander Heritage Month – Highlight AAPI contributions with educational displays and storytelling activities.

As the school year winds down, let's celebrate, appreciate, and inspire!
